

MCIA COVID-19 NOTICE

The **Missouri Cannabis Industry Association** (MCIA) recognizes the **coronavirus disease 2019** (COVID-19) as a catastrophic event and urges its members to follow the guidance of [federal](#), [state](#), and local health agencies in responding to the outbreak.

In concert with this guidance, we have responded by cancelling MCIA scheduled in-person meetings, events, and participation in other events until restrictions are lifted. Recognizing that it is critical to stay engaged in the administrative and political process of implementing Medical Marijuana to ensure patients have access to medicine, MCIA will continue to conduct our business utilizing our online collaborative communication tools.

We would like to assure our members that MCIA is sound and remains committed to our [mission](#) to see that patients' needs are served by caregivers and a competitive commercial market. If there are ways we can be of help to our members, please let us know.

Dave Bennett, President
Missouri Cannabis Industry Association
